ECOM20001 Econometrics 1

Tutorial 1 (Week 1)

Zheng Fan

The University of Melbourne

Introduction

Zheng Fan

- Ph.D student in Economics at Unimelb

- Weekly consultation & Ed discussion board (your first priority)

- Email ecom-1@unimelb.edu.au for administrative issues

- Consult Stop 1 for special consideration

- Email: fan.z@unimelb.edu.au

Before asking any questions, make sure you have gone through the materials on Canvas and existing posts on Ed discussion board!

Software

We will be using R for this subject. Make sure you have installed both R-studio and R-console. The detailed instructions are on Canvas.

- R-console: https://cran.ms.unimelb.edu.au/

- R-studio: https://posit.co/downloads/

R-studio is a working environment which makes R-console easier to access. We will go through some key features of R-studio.

After this class, you should know some basic commands and be able generate some outputs.

Remember coding is a labour work, and logic is more important than memorise syntax.

Attendance mark

You may be aware that we have 5% mark for attendance.

- To get full attendance mark 5%, you have to participate at least 10 tutorials that you official enrolled.

- If you cannot attend your registered tutorials, consult Stop 1 for special considerations or email ecom-1@unimelb.edu.au.

- Replacing tutorials is not allowed, unless you have approval from Stop 1 or subject coordinators.

If you came late, make sure you have your attendance marked before leaving. Late argument will not be accepted.

Some final words

All materials are available on Canvas. R code will be provided before each tutorials.

Solution will be available at the end of each week.

Please prepare for next tutorial with pre-tutorial questions.
